

AZERIC

Musical project by Éric SERAYET

ELECTRONIC PRESS KIT 2026

ALTERNATIVE ROCK • POETIC • CINEMATIC • ANALOG

AZERIC is the musical project of Éric SERAYET, a singer-songwriter, music producer and sound engineer based in Ardèche, France. His writing brings together alternative rock, poetry and cinema: electric guitars, 70s/80s keyboards, analog textures, silence, restrained saturation and dark depth.

Each track is approached as a scene: fragments of narrative, silhouettes, memory, human tensions and inner landscapes. AZERIC writes in French and English, produces his own recordings and develops a visual identity where film grain, old workshops and tungsten light extend the sound.

« *Each track is conceived as a scene.* »
